

NASSIM OULKAÏD

+212 650547297 – nassim.oulkaïd@usmba.ac.ma

I am a computer engineering student in the 4th year, passionate about web development with Spring Boot and React.js. With diverse project experiences, I thrive in collaborative environments focused on problem-solving. I am seeking an internship to grow and contribute to innovative projects.

WORK & INTERNSHIP EXPERIENCE

IMCOWORKSPACE (Business center with a coworking space) | 1-Month Internship | Web Developer Intern | HTML – CSS – JavaScript – PHP – MySQL – Firebase – XAMPP.

Meknes, Morocco | July 2024 – August 2024

Development of a Web Application for Service Promotion with an Integrated Interactive Chatbot – Attarwîj Agency

- **Designed and developed** a showcase website for Attarwîj Agency using HTML, CSS, JavaScript, PHP, and MySQL, enhancing the agency's online presence and service visibility.
- **Improved user engagement** by integrating an interactive chatbot, developed by a team member, to provide automated responses and facilitate customer interactions.
- **Front-end and back-end functionalities**, ensuring seamless navigation and an optimized user experience.
- **Implemented a secure contact form** using PHP, MySQL, enabling real-time message storage and automatic alerts for improved client communication.
- **Collaborated with a team of developers**, working in a collaborative and adaptive environment to meet project deadlines efficiently.
- **XAMPP** for local server deployment and database management, ensuring smooth website functionality.
- **Actively participated** in team discussions and problem-solving, contributing to the overall project success.

ITec Zone SARL (IT Solutions Provider)| 1-Month Internship | Mobile Application Intern | React Native(Beginner)

Meknes, Morocco | July 2023 – August 2023

Development of a Mobile Application Inspired by Amazon using React Native.

- Built the **front-end** of a mobile application using **React Native**, focusing on creating an intuitive and responsive user interface.
- Explored the **fundamentals of React Native**, successfully implementing key components and navigation features.
- Tested and deployed the application on an **iPhone**, ensuring smooth performance and user experience.
- Gained hands-on experience in **mobile development**, enhancing skills in cross-platform app creation.

EDUCATION

ENSA, FEZ (USMBA) Engineer Diploma - Software Engineering	2022 – Now
IBN GHAZI AL MAKNASSI, MEKNES MATHEMATICS AND PHYSICS(MP) • Relevant courses: Mathematics, Physics, Computer Sciences, Engineering Sciences, Philosophy, English.	2021 – 2022
CPGE CARNOT PREPAS, MEKNES MATHEMATICS AND PHYSICS(MP) • Relevant courses: Mathematics, Physics, Computer Sciences, Engineering Sciences, Philosophy, English.	2019 – 2021

ADDITIONAL SKILLS AND ACTIVITIES

- **Languages** : Java, JavaScript.
- **Frameworks**: React.js.
- **Databases**: MySQL.
- **Tools**: Github.
- **Language**: French (Fluent) – English (Good) – Arabic (Native)

PROJECTS

- A web application for managing a training center.| ASP.NET MVC, Entity Framework
